

Isolation Protocol:

4 Isolation stalls are available at all times. Depending on the circumstances, should any reason arise when these stalls would need to be utilized, sick horses will be placed in them after consultation with our local and state Veterinarians. Ride for the Roses I and II and Hotter than Blue Blazes I and II will use Barn G. The first four stalls on the pond side (numbers 2, 4, 6, and 8) will be isolated. If the USEF Drug testing should arrive, stalls F 2, 4, and 6 will be set up for testing purposes only.
